what they say

At a Funding the Family Business seminar, Myles encouraged us to contact someone we would like to support us. With some hesitation I sent a text to a local friend and we met later that day, only to find that the amount she and her husband had set aside to give away was exactly our support shortfall! The seminar helped me realise that God has already prepared people to support us and given me the confidence to discover who they are.

Hazel Pickett, OM

Feedback from previous seminars:

"It was enjoyable and realistic, as well as very informative. I'm very glad that I attended."

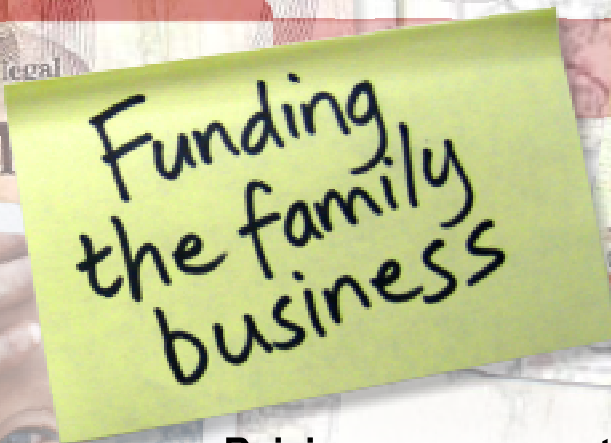

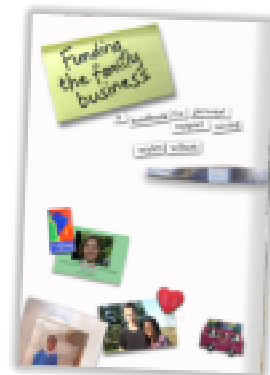

"A very helpful day. Makes future fundraising seem exciting and not so daunting."

"Thanks Myles for sharing your experience and struggle, to help us in ours."

About Myles Wilson

Myles Wilson, along with his wife Phyllis, has lived from a basis of personal support for over thirty years. He acts as a support raising adviser to major Christian organisations around the world.

" In God's family, some are primarily senders/givers while others are primarily goers/receivers. Each is equal in His family. For you to be able to do what God asks of you as a goer/receiver, others need to respond as senders/givers. It is how God funds His family business.

These workshops are not fundraising events – yet the raising of funds will be an outcome. They are about establishing a partnership between givers and receivers which will impact, not just your life, but theirs also.

The events are supported and held in association with:

Global Connections is a network of mission agencies, churches, colleges and service agencies with a passion about world mission.
